ACT/087/028/041
#2

Paul and Bob, I have reviewed Jean Semborski's write up and step-by-step plan for the experimental practice test plot augmentation, which you e-mailed me on June 7, 1999. As proposed the plan follows the steps we outlined in the field on Friday, June 4, 1999, during our site visit. Based on my review I believe the plan should be approved for implementation.

If you have any questions please give me a call at 303-844-1400, ext. 1469.

Bob Postle
